

## Speakers & Topics

### **Michael Cornelison, DPM**

- *Perioperative Considerations for the At-Risk Patient.*
- *Peroneal Tendons: Biomechanics and Pathology.*
- *Revisional Foot and Ankle Surgery.*

### **Annabelle Dookie, DPM**

- *A Primer on Venous Thromboembolic Disease: Risk, Prophylaxis, Diagnosis and Treatment.*
- *A Diagnostic Dilemma: Osteomyelitis vs Charcot Neuroarthropathy.*
- *Guidelines on Diabetic Foot Infections.*

### **Leland Jaffe, DPM**

- *Differentiating Benign vs Malignant Skin Lesions.*
- *Emerging Trends in MRSA Treatment.*
- *Optimizing Diabetic Glycemic Control Through Dietary Interventions.*

### **Amy Masowick, DPM**

- *Revisional Surgery: What Options Do You Have?*
- *The Ins and Outs of Ankle Sprains.*
- *Sural Nerve Complications.*

### **Eric Miller, DPM**

- *Utilization of Trabecular Metals in Foot and Ankle Surgery: Current Concepts.*
- *Management of Post-Operative Complications.*

### **Kevin Ragothaman, DPM**

- *Anterior Tarsal Tunnel Syndrome.*
- *Intramuscular Approach to Gastrocnemius Recession.*
- *Management of PTTD with Tendon Transfer.*

### **Shawn Ward, DPM**

- *First MTPJ Revision Surgery with a Cage.*
- *Metatarsal Osteotomy for Predislocation Deformity*
- *Biomechanical Assessment in Wound Care.*

on the 2021 Quickie Seminar page.

**CME for this program is 7 Credits,**

approved by the Ohio Foot and Ankle Medical Foundation, the certifying body for CME in podiatry in the state of Ohio by the Ohio State Medical Board.

## Registration

Online link to register located at  
**[www.MidwestAcademyOhio.com](http://www.MidwestAcademyOhio.com)**

### FEE SCHEDULE:

MPA Member	Free
APMA member:	\$20
Non-APMA member:	\$100
Podiatry students:	\$0
Assistant/Staff*:	\$20

\*DPM employer must be registered

Late fee, applies after 9/19/21 \$25

**Objectives:**

Upon completion of this educational program, the attendee will accomplish the following:

1. Learn pre- and post-operative surgical patient management.
2. Review tendon mechanics and learn surgical management to address specific pathology.
3. Learn techniques and tips to manage acute and chronic post-operative complications.
4. Learn diagnostic identifiers and manage dermatopathology.
5. Learn updated guidelines for management of diabetic wound infections.
6. Learn prevention, diagnosis and treatment of venous thromboembolic disease.
7. Learn management of ankle sprains.
8. Learn new techniques and implant options for foot surgery.
9. Review lesser metatarsal predislocation deformity and learn surgical correction procedure options.
10. Learn how deformities and biomechanics can be addressed to manage complex wound care cases.
11. Learn surgical management of extrinsic muscle and tendon structures to address foot pathology.
12. Learn to differentiate and treat osteomyelitis and Charcot neuroarthropathy.
